

Banyan Hill's

PROFIT ACCELERATOR

Quick Start Guide

By Charles Mizrahi

Founder of *Profit Accelerator*

CONGRATULATIONS and welcome!

We know you want to get started making money with *Profit Accelerator*.

So, we created this three-step quick start guide on how to get started in a matter of moments...

- 1. Investing in the portfolio:** We highly suggest you invest an equal dollar amount in all 10 of the stocks in the portfolio the day you become a member. The 10 stocks in the portfolio are considered “buys” and should be purchased immediately. To see the current portfolio, [click here](#).
In other words, don't pick and choose. *Profit Accelerator* is designed to be traded as a portfolio. This way, you will be fully invested and up to date on all of *Profit Accelerator's* trades. We highly suggest you don't wait for pullbacks, better times or procrastinate.
- 2. New trades:** *Profit Accelerator* is run once a month — the second Tuesday of each month after the stock market closes. A trade alert is sent out on Wednesday morning. Here's a [link to the trade alerts](#).
The current portfolio already takes into account the latest trade alerts. Trade alerts will tell you which stocks to buy or sell. If the system doesn't have any trade, the trade alert will say: “No trades.”
- 3. Weekly updates:** Each Monday, you will receive a [weekly update on the Profit Accelerator portfolio](#).
Here, I share insights on the companies in the portfolio, the system and other information that will help you gain confidence in our approach.

And that's it! You can be up and running with *Profit Accelerator* in minutes.

Now that you're finished with the quick start, here's a more expanded guide to [Getting Started with the Profit Accelerator](#).

And [here's a video](#) I did that gives you insight into how and why I created the *Profit Accelerator* and why I believe it will continue to be profitable in all types of markets.

If you have any questions, you can send them to me at Accelerator@BanyanHill.com or call my team at 866-584-4096.
